3

Now, you can see your device connected the Router successfully. You can start browsing internet.

Tips for your tablet

1. Play Store

You will find “Play Store” icon on the Main Menu. Play Store is a place you can download various applications that are developed with using Android's open source codes. You will find a lot of funs and useful applications.

Some applications have been designed to default to root on microSD card, then, you need to insert your microSD card into the slot so as to make the application be able to work.

2. E-Books

This tablet has pre-loaded some e-book readers and e-book applications that are developed by the publishers such as Kobo, Nook, Kindle, wish you always can find the books you like.

3. USB Connection

Connect your tablet and your computer by the USB cable first, then touch the USB icon on the bottom, then select “Media Transfer Protocol (MTP)”, there are 3 modes for selection, select “Media Transfer Protocol (MTP)”, then you can transmit the data between your tablet and your computer.
