

QUICK START GUIDE

MODEL:ID3551PR

IP Radio overview

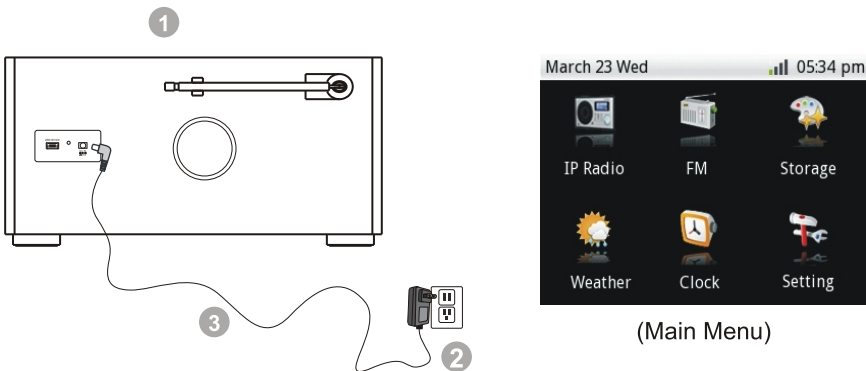

(Front)

(Back)

Initial Experience

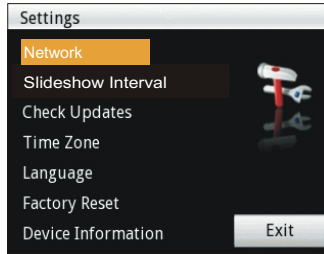

1. Connect the power adapter to the DC 5V jack on the back of the IP Radio.
2. Plug in the power cord.
3. Turn the knob clockwise to turn on the IP Radio.
4. After booting finished, below screen will appear, it is the main menu.

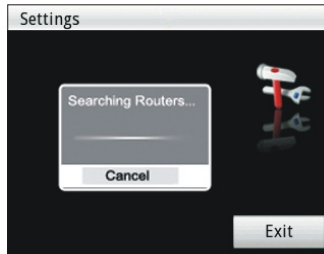

Networked Functions

For networked functions, such as IP Radio, Weather..., You need to link to internet firstly. Please operate as follow steps to setup your networks.

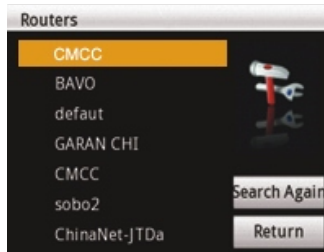

Touch the SETTING icon in the main menu, enter the setting menu.

Touch the NETWORK icon to search the Routers.

Your IP Radio will search routers in your surrounding, and your router will appear on the screen, touch on your router.

If you did not set a password for router, the IP Radio will link to internet automatically. If you have set a password for router, Soft keyboard will appear on the screen, input the password of your router, then touch OK icon on the screen.

After successfully connecting to the internet, IP Radio will enter into the internet radio channel list. You can also touch IP RADIO icon in the main menu to enter.

Now, please enjoy the internet channel you like.

Weather

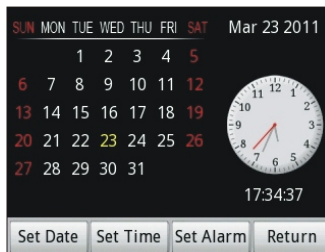

In the main menu mode, touch the WERTHER icon to enter into the weather menu.

Weather: Input the Zip Code of the desired city using the soft-keyboard, touch the OK icon to show the weather information.

Clock

In the main menu mode, touch the CLOCK icon to enter into the clock menu.

Clock: You can set date/time/alarm in the clock mode.

Note: You can turn on/off the alarm by SET ALARM.

FM Radio

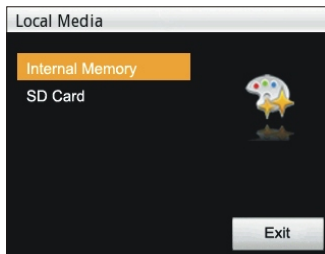

Touch the FM icon to enter into the FM Radio mode directly.

You can touch on the screen to select the radio stations.

Storage

Touch storage to enjoy your files in the memory or SD/MMC cards.
