Battery Management

The battery is not fully charged out of the box, so it is recommended that you charge the battery for at least 4 hours before you start to use the device.

The rechargeable battery is designed and manufactured to be used and recharged frequently. As with all batteries, the capacity of the battery reduces each time it is charged/depleted. However, you can still try to prolong the battery's lifetime by following the suggestions below:

- Use your Tablet at least once a week.
- Charge the battery regularly and fully.
- Never leave the battery fully discharged for a long period of time.
- Always keep the device and the battery away from heat.

Charge battery

Plug the power adapter into an electrical wall outlet, and then connect to the device to fully charge the battery before use (approx. 4hour).

☆ *You cannot charge the battery using the USB cable.*

When fully charged, the battery icon displays as: .

A fully discharged battery takes approximately 5 hours to fully charge, but you can use the device while plugged in when desired.

Important Safety Precautions

Always follow these basic safety precautions when using your Tablet. This reduces the risk of fire, electric shock, and injury.

- Do not expose this product to rain or moisture.
- Keep the device out of direct sunlight and heat sources.
- Protect the power cord. Route power cords so that they are not likely to be walked on or pinched by items placed on or against them. Pay particular attention to the point where the cord attaches to the device.
- Only use the AC adapter included with the device. Using any other power adapter voids your warranty.
- Do not remove the cover. There are no user-serviceable parts inside.

Clean your Device

Treat the screen gently. To clean fingerprints or dust from the screen, we recommend using a soft, non-abrasive cloth such as a camera lens cloth.
