

Netchef™

MODEL: PF810

Getting to know your Netchef

The Netchef is a touch screen recipe storing device suited to Wi-Fi Connectivity. Not only does it offer the ability to store all your favourite recipes and photos, but you can also listen to music, play videos, access the internet, download Apps and log onto Social sites all within the privacy of your own kitchen.

There is a fantastic selection of over 500 recipes already preloaded into your Netchef for you to access immediately. The Netchef can also be used as a Digital Photo Frame to display your treasured memories. For your convenience we have also included a timer and a unit converter at the bottom of every pre-installed recipe to convert measurements if required.

It comes complete with an 8" Hi-resolution screen (1024x768). The Netchef displays high quality images and comes with a built in Memory for you to store all your favourite recipes. The external memory can be extended up to 32GB.

QUICK START GUIDE

Getting to know the home screen

1	CATEGORY LIST	There are over 500 preloaded recipes within these categories for you to choose from.
2	FOOD SITES	View our Favourite Recipe pages and access literally 1000's of recipes and videos Online.
3	ADDITIONAL FUNCTIONS	Select various tools to play music, view your photos (Stored on your SD Card) and Access social sites. Scroll across to view ALL options.

Adjust the Volume

1. Long press “**HOME**” button on the device, the volume bar will display on the top of the screen, then slide the volume bar to adjust the volume.
2. On the home screen, you can slide the middle of the home screen and the volume bar will appear at the top, slide the volume bar to adjust the volume.

QUICK START GUIDE

Setup of your NEW NetChef

- Connect your new Netchef to an available power source using the power adaptor included in the box.
- Press and hold the power Button down for 3 seconds.
- The initial Netchef Welcome screen will appear. Please do not touch your Netchef whilst it is powering up. (This will take approx. 5~10 seconds)
- The Netchef will then show a message that the “Netchef is booting”. Please wait for this to finalise. This will appear for approximately 20 seconds.
- Your preloaded recipes are included in the Category List on the left. To slide the categories simply use your finger and slide up and down to view other categories. When the category list shows red, the recipe list is online recipe, when the category list shows green, the recipe list is preloaded local recipe.
- Within the right hand column, “Food sites”, we have listed a number of inspiring and helpful links which may be of interest to you. Simply touch to access. (Please note you will need to be connected to Wi-Fi to access these links) see below.

Connecting your NetChef to your Wi-Fi

Please ensure your home Wi-Fi router is turned on to enable the Netchef to find and connect to this signal.

1. Select the Wi-Fi icon at the bottom of the screen on your Netchef
2. Turn on the wifi by sliding the OFF icon to the “ON” position (right).

3. Your NetChef will search wireless routers in your surroundings and the name of your Wi-Fi connection will appear on the right of the screen. Select your Connection.

QUICK START GUIDE

- If you have not allocated a password to your Wi-Fi connection then the NetChef will connect automatically. If you do have a password you will be prompted to enter it.
- Touch on the password box and enter your password using the keyboard on screen. Then select Connect.

- Your Wi-Fi has now been connected so you can start enjoying all the functions of the Netchef.

- Netchef will remember these settings, so when re-starting your Netchef, if your home router is turned on, it will re-connect automatically.
