

QUICK START GUIDE

Model: ID1032WTA

Know your tablet

Initial Experience

1. Press the Power button to turn on your device; the Android booting image will appear on the screen, it will take about 40 seconds. After booting finished, below screen will appear.

1

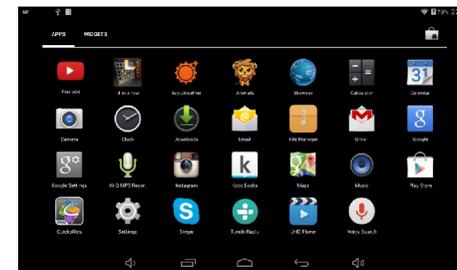

2. Slide the Lock icon to unlock the screen:

3. Then the below main menu will display on the screen:

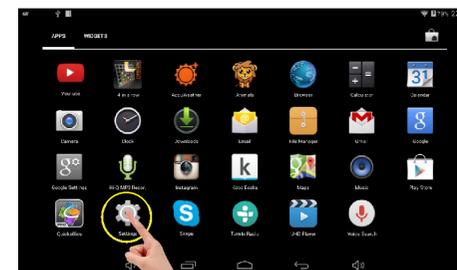

4. Touch the icon (⊞), you can see all the apps list, then you can enjoy your photos, music, video, ebooks, games...

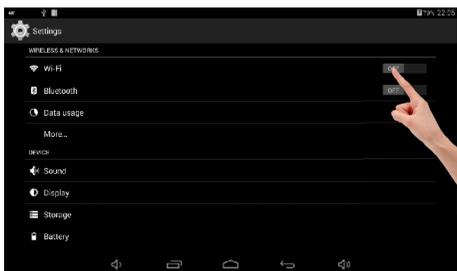

Networked Functions

For networked functions, such as Browser, Map, Email, YouTube, Facebook, Play Store..., you need to link to internet firstly. Please operate as follow steps to setup your networks, touch "settings".

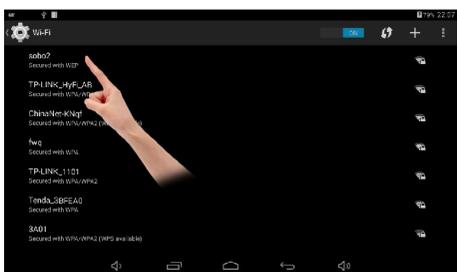

2

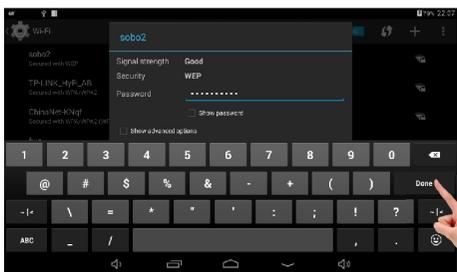

Turn on the wifi by slide the OFF icon to right side.

Your tablet will search wireless routers in your surrounding, and your router will appear on the screen, touch on “Your Router”.

If you did not set a password for your router, the tablet will link to internet automatically. If you have set a password for your router, Soft Keyboard will appear on screen, input the password you set for your router, then touch “Done” on the keyboard.

Then, the below square will appear on screen, touch “Connect”.

Now, you can see your router has been connected, which means your tablet has been linked to internet.

Now, you can enjoy all networked functions.

Tips for your tablet

1. Play Store

You will find “Play Store” icon in the main menu. Play Store is a place you can download various applications that are developed by using Android’s open source codes. You will find a lot of funs and useful applications.

Some applications have been designed to default to root on microSD card, then, you need to insert your microSD card into the slot so as to make the application be able to work.

2. E-Books

This tablet has been pre-loaded some e-book readers and e-book applications that are developed by the publishers such as Kobo, wish you always can find the books you like.
