## 12. Remove the Time/Weather panel

Logon to the cloud frame service platform <https://cloud.sungale.com>, click "**Frames**" on the platform. If you find "**Weather Panel Setting**" button, you can select to turn off/on weather report. For some earlier models, you may not see the selection button, which means the frame's system needs upgrade, please contact [support@sungale.com](mailto:support@sungale.com) for system upgrade instruction, then, you can select to turn off/on weather panel.

## 13. What's my account number while signing in to cloud app?

It is just the email address you have used when you registered your cloud frame, and the password is just the one you are using for logged in the cloud frame's service platform <http://cloud.sungale.com>.

## 14. Forget password, Cannot sign in to frame service platform <http://cloud.sungale.com>

There's a "**forgot password**" link under the "**login**" screen. You can input your registered email address and "**submit**", then, you will get a new password created by the server from [support@sungale.com](mailto:support@sungale.com), then, please change it to your own password.

## 15. How to make slideshow the photos stored in USB/SD card/On-board memory?

Go to "**Local Photos**" section, click the vertical three dots on the upper right corner, click "**start slideshow**" from the dropdown menu.

## 16. Can I change the local photo slide show styles/time intervals?

NO, only cloud album slide show is configurable

## 6. What to do when I got message "This frame is already registered by another user" message?

Sometimes retailers resell returned goods, and you might get a device that is previously registered by another user. But don't worry we can remove previous registration for you, please send a picture with the frame showing the serial number, and a copy of your purchase receipt, we'll remove previous registration for you as soon as possible.

## 7. Why does my cloud frame "Turn off" after a while?

Your frame will not turn off by itself, it'll go to sleep according to the cloud setting. You can adjust how long your frame goes to sleep. Simply login to your Sungale cloud app, tab "**Manage Frame**" from the menu options, and tab the settings icon of your frame to go to your frame settings.

Then adjust the sleep in settings to your desired time, and save the setting. Your cloud frame will pick up the change shortly.

## 8. Can I send videos to my cloud frame?

The Sungale cloud does not support sending cloud videos yet. But you can access videos on other online app, or insert a SD card, to access from the Local Video section.

## 9. My account password isn't working, what can I do?

You can reset the password by clicking the Forgot Password link at the Sungale cloud app login interface. Or you could email [support@sungale.com](mailto:support@sungale.com) to have it reset.

## 10. Pictures showing sideways or upside-down on frame

Please delete the wrong photos, then, re-upload on cloud frame website or via app.

## 11. Frame showing "Wififrame has stopped" message frequently

It happens for too many pictures been pushed at once meanwhile the Wi-Fi connection is not good. We would like to suggest you to split the pictures into smaller slide shows, and push one by one, it is better to wait for one slideshow fully shown, then push another.

## 1. I'm not able to register, the app says my frame has Invalid serial number?

Only Sungale cloud products can be registered with Sungale cloud. If you have a regular digital photo frame, which doesn't have cloud feature, it cannot be registered with Sungale cloud, please just use SD card or USB flash drive to display photo (and videos).

## 2. How to find my cloud frame serial number?

On your cloud frame, click Settings at the lower right corner, then click **"Settings"** again, scroll down to find **"About device"** or **"Device info"**, you'll find your device serial number starts with **"SU\*\*\*\*"**.

## 3. Why my cloud pictures are not showing on my cloud frame?

Please first check if your cloud album has been pushed to your cloud frame. Login to your Sungale cloud app, tab **"Manage Frame"** from the menu options, then tab your cloud frame showing on the top, you'll see which cloud albums have been pushed your frame.

If an album has been pushed, but not showing on our frame, please check Wi-Fi connection on your frame, check if it is connected to Internet, please go to your frame home screen, and go to Online Photo or Online Video backup list, see if the backup list can show up.

If all of above are all confirmed with no problem, it still cannot receive photos, it is a rare case. Then please try to do following operation, go to **Settings > Apps > All > find "Wififrame" app** (the app could be named same as your cloud frame model number) > press **"clear data"** button > **reboot frame**. This would re-download everything you've pushed from the cloud.

## 4. I haven't received activation code for registration.

Please check your junk folder, if still haven't received anything, please email support@sungale.com, we'll push through the registration for you within 24 hours.

## 5. How to update my cloud account email? What if I have a typo?

Your account email cannot be changed once it's registered, you'll need to contact support@sungale.com to update it.

## FAQs:

### Q 1: Why can't I link to Wi-Fi?

A: Please check if you have turned on the Frame's Wi-Fi. Go to ~ Setting ~ Network & internet ~ Wi-Fi ~ Slide "Off" to "On"

Please check if you have input the right password of Wi-Fi router. For more Wi-Fi related questions, please go to [www.sungale.com](http://www.sungale.com) and find Support Wi-Fi related FAQ.

### Q2: Why can't I download applications from the Play Store?

A: Please check if you have registered a Google account; please check if the frame's storage has enough space. If it doesn't, you will need to insert an SD card.
